DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 3-17, drawn to a prosthetic foot, classified in class 623, subclass 52.
- II. Claims 18-25, drawn to a method of using a prosthetic leg, classified in class 623, subclass 47.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product as claimed can be used by a materially different process such as an hydraulic prosthetic system joint having a flow medium with valves, piston chambers, etc.
